Building plot for sale, neat and flat. Cleared, surrounded by a forest. Two hundred meters from the center of the village and one and a half kilometers from the sea. Neat access road and papers. A great opportunity to build a family house or a two-story house, since the first floor would have a nice view of the sea and the bay. Electricity and water nearby. The surrounding plots are also for construction, and construction has started on some of them, so there are no problems with obtaining a building permit and all the necessary permits.
