Sale of Building Plots – Excellent Opportunity!

Two building plots are for sale, exclusively as a package, with a total area of 2,827 m². The first plot measures 1,320 m², while the second covers 1,507 m². The plots are located next to each other, allowing for greater flexibility in planning and construction.

The properties are situated in a very favorable location, in close proximity to the state road Buzet–Lupoglav, ensuring excellent traffic connectivity and easy access. Due to its position, the land is ideal for building a family home, a weekend house, or an investment project.

Basic infrastructure connections – water and electricity – are already secured on the plots, significantly facilitating and speeding up the start of construction. Additionally, there is a direct access road leading to the state road.
