For sale is a building plot of 940 m², located in a quiet and pleasant environment, ideal for the construction of a family home or a vacation house with a pool.

The plot has guaranteed access and is partially enclosed by a reinforced concrete wall on two sides, providing the future owner with additional privacy and clear boundaries. The surroundings consist mainly of family homes and tourist rental properties, making the location attractive for both living and investment.

The land already has a water connection, while other necessary connections are located directly next to the plot, facilitating easier preparation for construction. A water pipe runs through one part of the plot.

Thanks to its peaceful location and good potential, this land represents an excellent opportunity for the realization of a private or tourist project.
